Video

Ema, your salesperson that knows all the details of all your products.

PAGE 2

A slow, frustrating, and impersonal shopping experience kills conversions.

- ❌ **Language barriers push potential customers away.**
- ❌ **Delayed or inconsistent replies drive them straight to your competitors.**
- ❌ **When confused, customers don’t ask — they abandon.**

The easier and more natural you make the shopping experience, the greater your sales success will be.

PAGE 3

Using the System Is as Easy as Talking

EMA welcomes every customer with a natural, human-like dialogue.

- ⏰ **Never Gets Tired**
  Available 24/7, never fatigues.

- 😊 **Endless Patience**
  Answers every question patiently.

- 📦 **Knows Every Product**
  Complete knowledge of product details, stock, and prices.

- 🔍 **Master of the Details**
  Understands even the most technical specifications.

We upload your product and company information.

2. AI Training

Your AI Voice Assistant is trained specifically for your business.

3. Interface Setup

A personalized EMA page is created for your company.

PAGE 5

EMA's Key Features

Each feature is designed to enrich the customer experience.

🔊 Natural Language Processing

EMA understands and responds to natural spoken language using advanced AI.

Benefits

- Eliminates the need for keyboard and touchscreen use
- Ideal for elderly customers or those unfamiliar with technology
- Enables hands-free interaction
- Understands nuances, intonations, and accents in speech

🌐 Multilingual Support

EMA can communicate fluently in five different languages. It speaks your customer's language—literally.

Benefits

- Removes communication barriers with tourists and foreign customers
- Eliminates the need for a translator
- Reduces the need for foreign language–speaking staff
- Increases international customer satisfaction

🧠 Contextual Understanding

EMA doesn’t just hear words — it understands the context behind them.

Benefits

- Maintains a logical and seamless flow of dialogue
- Doesn’t require the customer to repeat information
- Understands complex customer needs
- Responds naturally, like a human

📈 Customer Insights

EMA gathers valuable data from customer queries and interactions, turning them into actionable insights.

Benefits

- **Identifies the most frequently asked-about products**
- **Analyzes purchasing trends**
- **Measures customer satisfaction**
- **Helps you make data-driven inventory and sales decisions**

Which languages does EMA support?

EMA currently supports Turkish, English, Arabic, Russian, and French fluently. Language support will expand with future updates.

How can I integrate EMA into my store?

Integrating EMA is very simple. Our installation team visits your store, installs the required hardware, and integrates it with your systems. The average setup time is just a couple of days.

What are EMA's hardware requirements?

EMA does not require any hardware per se. However for in-store solution all that is required is only a standard touchscreen, a microphone, and a speaker system. All equipment is included in the installation package and is set up by our professional team in your store.

How do my customers use EMA?

Your customers can interact with EMA completely naturally. Saying "Merhaba" or "Hello" on the screen is enough to get started.

Does EMA store customer data?

EMA extracts valuable insights from customer interactions but does not store personal data. It collects only anonymous data such as product queries and frequently asked questions to help improve store operations.

Do I need to update EMA when I add new products?

No. EMA is cloud-based and automatically syncs with your store inventory. When you add new products or change prices, EMA updates itself automatically.

Can EMA work without an internet connection?

EMA requires internet access for optimal performance.

What is the cost of EMA?

EMA is offered through monthly subscription plans. Pricing depends on the size and needs of your store.
